

# Grading Report

Student Name: Khursheed

Exam Title: CN

Date: 2024-12-01

**Total Marks Awarded: 4.0 out of 5**

## Grading Report

**Question 1: \*\*Quiz 8\*\*: Explain the benefits and risks of agriculture as a mode of subsistence.**

**Answer: Agriculture is very vital because it makes food available for communities. However, agriculture has risks since it depends on climate and when there is adverse climate change there is a possibility of famine.**

>>>>

Student's Answer:

However, agriculture has risks since it depends on climate and when there is adverse climate change there is a possibility of famine."

*Correct Answer:*

*\*\*Quiz 9\*\*: List the six characteristics of industrial agriculture. What are the benefits and what are the risks?*

*Answer: There are six features of industrial agriculture that include increased the use of multifaceted tools and technological routine, the increased use of money in exchange for labor, increased use of energy, the increased effect of the state, the propensity to competition, the specialty and overproduction, and the amplified interdependence between agribusiness and farm units. The features have increased high output of agricultural products because of its mechanization, and at the same time brought unemployment in some cases since most of the tasks done by people have now been mechanized.*

>>>>

*\*\*Quiz 10\*\*: Understand how specialization is related to different modes of subsistence.*

*Answer: Specialization is crucial in different modes of subsistence because it helps a single person to major with one area, for instance, horticulture, and provide quality products.*
