Question 1: Question 1: What are the reasons for using React?

Student's Answer:

We can split our app into multiple components and reuse those components. React uses a virtual DOM to efficiently update the UI which is better than updating content using DOM Manipulation. We can use states and props that helps in updating variable across pages.

Correct Answer:

We can split our app into multiple components and reuse those components. React uses a virtual DOM to efficiently update the UI, which is better than updating content using DOM Manipulation. We can use states and props that helps in updating variable accross pages.

Marks Awarded: 4.0 out of 5

Feedback: Your answer is mostly correct, but you missed mentioning the efficiency of the virtual DOM in updating the UI compared to DOM manipulation.
