Exam Title: CN

Date: 2024-12-01

Total Marks Awarded: 5.0 out of 5

Grading Report

Question 1: Question 1: What is the reason of splitting our app into multiple components?

Student's Answer:

Answer:

</tool_response> **Why React?**

We can split our app into multiple components and reuse those components.

We can use states and props that helps in updating variable accross pages.

We use a virtual DOM to efficiently update the UI which is better than updating content using DOM manipulation.

</tool_response>

Correct Answer:

Answer: Splitting an application into multiple components for easier app development, as well as the ability to reuse components in the application.

Marks Awarded: 5.0 out of 5

Feedback: Excellent work!
