Student Name: saadain

Exam Title: CN

Date: 2024-12-01

Total Marks Awarded: 20.25 out of 25

Grading Report

Question 1: Quiz 8.

Student's Answer:

Answer: Agriculture is very vital because it makes food available for communities. However, agriculture has risks since it depends on climate and when there is adverse climate change there is a possibility of famine.

Correct Answer:

Explain the benefits and risks of agriculture as a mode of subsistence.

Marks Awarded: 4.5 out of 5

Feedback: Good attempt, but there are some errors.

Question 2: Answer: Agriculture is very vital because it makes food available for communities.

Student's Answer:

What are the benefits and risks?

Answer: There are six features of industrial agriculture that include increased use of the multifaceted tools and the technology routine, augmented use of money in exchange for labor, amplified energy use, increased effect of the state, propensity to competition, specialty and overproduction, augmented interdependence between agribusiness and farm units. The features have increased high output of agricultural products because of its mechanization, and at the same time brought unemployment since most of the tasks done by people have now been mechanized.

Correct Answer:

However, agriculture has risks since it depends on climate and when there is adverse climate change there is a possibility of famine.

Marks Awarded: 3.75 out of 5
