Question 1: Question 1: What is the main purpose of optimizing an image for web search?

Student's Answer:

Agriculture is very vital because it makes food available for communities. However, agriculture has risks since it depends on climate, and when there is adverse climate change there is a possibility of famine.

Correct Answer:

To ensure the image is clear and high-quality, properly labeled with descriptive alt text, used in conjunction with relevant surrounding content, and associated with relevant meta tags on your website (if applicable).

Marks Awarded: 0.0 out of 5

Feedback: The student's answer does not address the main purpose of optimizing an image for web search, focusing instead on the importance of agriculture.
