

# Grading Report

Student Name: Khursheed

Exam Title: SDA

Date: 2024-12-01

**Total Marks Awarded: 0.0 out of 25**

## Grading Report

### Question 1: Question 1: What is the title of the quiz page?

Student's Answer:

Agriculture is very vital because it makes food available for communities. However, agriculture has risks since it depends on climate and when there is adverse climate change there is a possibility of famine.

*Correct Answer:*

*Top-papers.com*

Marks Awarded: 0.0 out of 5

**Feedback: The student's answer does not address the question about the title of the quiz page and instead discusses the importance and risks of agriculture.**

### Question 2: Question 2: What is the first question on the quiz page?

Student's Answer:

There are six features of industrial agriculture that include increased use of the multifaceted tools and the technology routine, augmented use of money in exchange for labor, amplified energy use, increased effect of the state, propensity to competition, specialty and overproduction, augmented interdependence between agribusiness and farm units. The features have increased high output of agricultural products because of its mechanization, and at the same time brought unemployment since most of the tasks done by people have now been mechanized.

*Correct Answer:*

*Explain the benefits and risks of agriculture as a mode of subsistence.*

Marks Awarded: 0.0 out of 5

**Feedback: The student's answer does not address the question about the first question on the quiz page and instead discusses the features of industrial agriculture.**

## Grading Report

**Question 3: Question 3: What are the benefits and risks of agriculture as a mode of subsistence?**

Student's Answer:

Specialization is crucial in different modes of subsistence because it helps one to major with one area, for instance, horticulture, and provide quality products.

*Correct Answer:*

*Agriculture is very vital because it makes food available for communities. However, agriculture has risks since it depends on climate and when there is adverse climate change there is a possibility of famine.*

Marks Awarded: 0.0 out of 5

**Feedback: The student's answer does not address the question about the benefits and risks of agriculture as a mode of subsistence.**

**Question 4: Question 4: What are the benefits and risks of industrial agriculture?**

Student's Answer:

According to Diamond, definitive issues that led to inequalities are all ecological in nature: geography, earth fertility, animal and plant accessibility, and the climate change.

*Correct Answer:*

*There are six features of industrial agriculture that include increased use of the multifaceted tools and the technology routine, augmented use of money in exchange for labor, amplified energy use, increased effect of the state, propensity to competition, specialty and overproduction, augmented interdependence between a grilbusiness and farm units. The features have increased high output of agricultural products because of its mechanization, and at the same time brought unemployment since most of the tasks done by people have now been mechanized.*

## Grading Report

Marks Awarded: 0.0 out of 5

**Feedback:** The student's answer does not address the question about the benefits and risks of industrial agriculture, instead focusing on ecological issues that led to inequalities according to Diamond.

**Question 5: Question 5: How is specialization related to different modes of subsistence?**
