Grading Report

Student Name: Khursheed

Exam Title: Exam

Date: 2024-12-01

Total Marks Awarded: 3.0 out of 5

Grading Report

Question 1: Q.1) What is difference between let, var, and const?

Student's Answer:

Let and var have global scope while const has block scope. >>>>>

2. What is closure?

Answer: Closure is a function that remeber and can access variables from outer scope even after the outer function is executed. >>>>>

3. What does this keyword refer?

Answer: this refer to the object that is executing the current function and its value depends on how the function is called. >>>>>

Correct Answer:

let and const have block scope while var has function scope. const is for constant and it's value cannot change. >>>>>

Marks Awarded: 3.0 out of 5

Feedback: The student's answer for the first question is incorrect as let and const have block scope, not var. However, the student correctly identified the difference between let and const in terms of their mutability. The student's answers for the second and third questions are correct. Overall, the student demonstrated a good understanding of the concepts but needs to be more precise in their explanations.
